

Central Felixstowe Repairs and Maintenance

Felixstowe, Suffolk

What are we updating you about?

Coastal Partnership East are the coastal management team for East Suffolk Council (ESC), North Norfolk District Council and Great Yarmouth Borough Council. We have appointed East Suffolk Water Management Board (ESWMB) to complete repairs and maintenance of coastal protection assets along the Suffolk coast, which are owned or managed by ESC. ESWMB will be completing works at Felixstowe as part of that contract.

Where is this work happening?

A map of where the work is taking place is on the back of this factsheet. The work is spread across the defences between the Spa Pavilion and Bent Hill, Felixstowe. There will be a temporary site compound in the Spa Pavilion car park. Equipment and vehicles will operate on the promenade.

When are we doing the work?

Repair and maintenance work along the coastal defences is due to start from 28th October 2024 and last approximately 3 weeks.

What will we be doing?

ESWMB will be replacing coping stones along the sea wall and promenade. We will work hard to keep any inconvenience to a minimum and ask the public to please take note of the contractor's signage when work is happening.

Why are we doing this work?

This work will improve flood defence assets and is an important part of ESC's commitment to ensure that the coastal assets they are responsible for are working effectively and are safe for the public, helping to protect our beautiful and important coastline economically and environmentally and for the enjoyment of communities and visitors for generations to come.

Undertaking regular targeted maintenance means that we can maximise the lifespan of coastal protection assets, ensuring that we make the most of every pound spent and achieve a better return on public investment. We are supporting the safeguarding of life and local economies by making sure that the Council's coastal assets are in the condition needed for continued protection.
