

# South Lowestoft Repairs and Maintenance

Lowestoft, Suffolk

## What are we updating you about?

Coastal Partnership East are the coastal management team for East Suffolk Council (ESC). We have appointed the Water Management Alliance (WMA) to complete repairs and maintenance of coastal protection assets along the Suffolk coast, which are owned or managed by ESC. WMA will be completing works at Lowestoft as part of that contract.

## Where is this work happening?

A map of where the work is taking place is on page 2 of this factsheet. The work is spread across the coast protection defences from South Pier to Parade Road South. There will be a temporary site compound in the Royal Green car park.

## When are we doing the work?

Repair and maintenance work along the coastal defences is due to start from Monday 13<sup>th</sup> January 2025 and last approximately 1 week. The work is dependent upon tides, and favourable weather and sea conditions.

## What will we be doing?

WMA will be maintaining the seawall. We will work hard to keep any inconvenience to a minimum and ask the public to please take note of the contractor's signage when work is happening.

## Why are we doing this work?

This work will improve coastal protection assets and is an important part of ESC's commitment to ensure that the coastal assets they are responsible for are working effectively and are safe for the public, helping to protect our beautiful and important coastline economically and environmentally and for the enjoyment of communities and visitors for generations to come.

Undertaking regular targeted maintenance means that we can maximise the lifespan of coastal protection assets, ensuring that we make the most of every pound spent and achieve a better return on public investment. We are supporting the safeguarding of life and local economies by making sure that the Council's coastal assets are in the condition needed for continued protection.
